

California OES Weather Threat Briefing

Tuesday, November 3, 2020
9:00 AM PDT

Day 1 (Tuesday): Locally elevated fire weather conditions again today across the southern California mountains with areas of gusty winds and very dry conditions. Temperatures statewide will also remain well above normal this afternoon.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

11/03/20 - 11/09/20

Tuesday-Thursday

- Locally elevated fire weather conditions continue across the southern California mountains through midweek, where local wind gusts to 30 mph and very dry conditions are expected
- Areas of coastal fog tonight into Wednesday morning along the southern CA coast.
- Risk for sneaker waves and rip currents along many of the northern California beaches Thursday
 - Sudden larger waves occurring after periods of smaller waves are expected, posing a risk to those on the beach

Friday-Monday

- Significant change in the weather pattern expected Friday and into the weekend.
 - Some precipitation increasingly likely across the Sierra and far northern California
 - Increased winds, especially along the Sierras
 - Light precipitation also possible across parts of southern California by the weekend
 - Much cooler temperatures expected statewide by the weekend
 - Fire weather conditions may become elevated for parts of the state during the windiest conditions Friday
